

Purdue University was founded in 1869 as Indiana's first and only land-grant institution, charged with the mission of opening the doors of higher education to all, for the benefit of the state of Indiana and our nation.

Today, the Purdue system includes an elite research flagship campus and two regional campuses, as well as nine Polytechnic Statewide locations spread throughout our home state and an Extension presence in each of Indiana's 92 counties.

Soon, it will include a new, robust online university that will make a high-quality Purdue education available to even more students nationwide.

Main Campus Fast Facts:

Main campus: West Lafayette, IN
450,000+ alumni around the globe
